Granite City Tool Company of Vermont began in the famous GRANITE MANUFACTURING CENTER, BARRE, VERMONT, in 1885, and has operated there continuously since, supplying Granite Tools, and Stone Tools to a wide variety of industries. For almost 130 years it has remained true to its original motto of "EVERYTHING FOR STONE WORKING". Now in the third generation of same-family Ownership and operation, it repeatedly proves its reliability and resourcefulness in a changing world. Through the years, it has played a leading role in the development and introduction of equipment, Granite Tools, Stone Tools, Diamond Products and Monument Supplies that have resulted in today's technology. In recent years Granite City Tool has supplied these products for the fabrication of stone for construction, Monumental, Restoration and Landscaping. Our reputation is built on unsurpassed quality and customer service. Although our plant, fully stocked warehouses, and offices are in Barre, Vermont, we also drop ship from locations throughout the United States. In addition to national coverage, we also serve the Canadian and European markets.
