

Joseph DeFontes established the company in 1953 in a small Massachusetts town when he recognized the need to provide markers for the cemetery industry. As he perfected the markers, he found that the one-pour *chill* method formed a superior product.

The company has since moved to Canaan, New Hampshire. We continue to manufacture the markers utilizing the same procedures. We are not distributors or resellers of markers. We make all our markers at our location and only family members help in the process. We pride ourselves in the fact that our manufacturing is efficient, our quality is superior and our price and delivery is second to none. Our shipping charges are never inflated. We do not "add" additional handling fees, we simply pass along the shipping charges as identified by our carriers.

We trust that you will find the markers that meet your needs in our product offerings, however, if you would like to discuss other markers or a "special" style of marker please give us a call. We would love to hear from you.
